Safety Plan for Group Travel

The purpose of the Safety Plan for Group Travel is to identify both resources available and potential challenges that groups may face throughout the program. By identifying the potential risks and avenues for mitigation, the Safety Plan aims to prepare you and your program to navigate the inevitable variances that come with international travel. It is not meant to lock you in to a minute-by-minute itinerary, but to demonstrate the program's infrastructure for handling emergencies and changes to plan. It also allows the ITOC Executive Body to assess the program to ensure the university is promoting healthy, safe, and productive international experiences for everyone.

Submit the following information to the International Travel Oversight Committee (ITOC) at itoc@wustl.edu. Forms should be submitted at least 30 days before the trip's departure.

Safety plans must be reviewed and approved by the ITOC Executive Body in order to proceed.

Contact itoc@wustl.edu with any questions.

b. Graduate students:
